This is not something that GTI can sustain. Memo to: BATA Board of Directors

Justin Westin, Director of Finance
Re: Fare Structure

After conducting a thorough review of BATA's current fare structure and future fare revenue scenarios, BATA staff recommends maintaining the current structure at the launch of the new EZ Fare System for the following reasons:

Solid Fare Revenue:

BATA collected \$652,249 (4.7% of total revenue) in FY2025 based on our current fare structure and ridership. Ridership continues to increase resulting in higher fare revenue at BATA's current fare rates. (City Loop: \$1.50 / \$.75 * Village Loop: \$3 / \$1.50 * Link: \$6 / \$3)

Reduce Confusion:

The launch of a new fare system in 2026 will be quite the learning curve for riders so keeping the same fare structure with the launch of the new system eliminates one point of confusion.

State Fare Revenue Percentage Mandate:

The State of Michigan may require public transit agencies to generate 6% of their total revenue from rider fares in the future. If that mandate occurs BATA can build off that reason for any needed fare changes.

Millage Timing:

BATA will be requesting a millage in November of 2026. Raising fares the same year of the millage may cause voter concern. Recommend changing fares on a non-millage year.

Better Fare Data:

The new EZ Fare system will have a lot more data regarding fare usage that we can use to develop a revised fare structure at a later date. Launching the system with our current fare rates will provide better insights into future modifications.

Link Service Review:

In 2026 BATA will be conducting an interview review of our Link service and may have recommendations for service modal modifications that would tie into BATA's overall fare structure.

MEMO

To: BATA Board of Directors
From: Chris Davis
Date: 12/4/2025
Re: Employee Retention Stipends

On September 25, 2025, the BATA Board of Directors approved a three-year contract with Teamsters Local 214 Bus Drivers and Mechanics and Teamsters Local 214 Dispatchers. At the time of the Tentative Agreements, the expected revenue was considerably less than subsequently given to BATA. As part of the Agreement with the Teamsters Local 214, the Board approved an off-schedule stipend of \$500 to employees if revenue and expenses were better than expected at the time of the Tentative Agreement. Revenue and expenses were better than expected at the time of the Tentative Agreement, therefore, it is recommended that a \$500 off-schedule stipend be given to all employees who worked for BATA 32 hours or more per week prior to October 1, 2025, and \$250 to employees who worked less than 32 hours per week prior to October 1, 2025. The approximate cost of the stipends is \$62,000.

Request: The BATA Board of Directors approves the request for the off-schedule employee stipends, totaling approximately \$62,000.
